

Welcome to the COOL DH conference
**TOWARDS NEXT GENERATION OF
DISTRICT HEATING**

18th and 19th of May 2022

Get to know the latest and visit the demo sites in both
Denmark and Sweden!

Welcome to Greater Copenhagen!

Welcome to two days where we deep dive into the European future of district heating and the results of the pioneer project COOL DH. Take the chance to get inspired by the full-scale demonstrations in Lund, Sweden and Høje-Taastrup, Denmark. They cover new low-temperature district heating developments, tested at a large scale. The conference includes both presentations, discussions, and site visits.

See you in person for the full two days or online for the morning sessions that will be broadcasted live!

18th May

Malmö Arena Hotel, Sweden

- The trends and driving forces for district heating in EU with European Commission and the transformation of the Swedish district heating with Swe-Heat & Cooling.
- Demonstration cases COOL DH Lund with Kraftringen and Lund University. Example of other pioneering projects with large scale demonstration in the development of low temperature district heating. Cases from Lund, Sweden, and other cities in Europe with IVL Swedish Environmental Institute.
- Site visit to Brunnsög, Lund (Sweden) and the world's largest low temperature district heating network based on fossil free energy recovery.

19th May

Høje-Taastrup Town Hall, Denmark

- Major findings from EU supported district heating projects with European Commission and development of future solutions in Greater Copenhagen with HOFOR. Further, Høje-Taastrup Municipality's Climate and Energy strategy towards 100% green district heating.
- Demonstration cases COOL DH Høje-Taastrup with Høje-Taastrup District Energy and Visions towards next generation of district heating with METRO THERM and COWI, including new multilayer PE-RT pipes with Kingspan/Logstor.
- Site visit to CITY2, PV assisted co-producton District Cooling and Low Temp. District Heating, Large Scale Thermal Energy Storage and Solar District Heating in Høje-Taastrup.
