
We are living in a moving world ...

AN ENERGY TRANSITION,

in a world where resources are limited and where we all have to play a role in energy.

A DIGITAL TRANSITION,
which affects all business sectors and is completely changing our way of life.

**A TRANSITION AT LOCAL
AUTHORITY LEVEL,**
to rethink mobility, energy and waste management ... for more harmonious living

Digital tools for ...

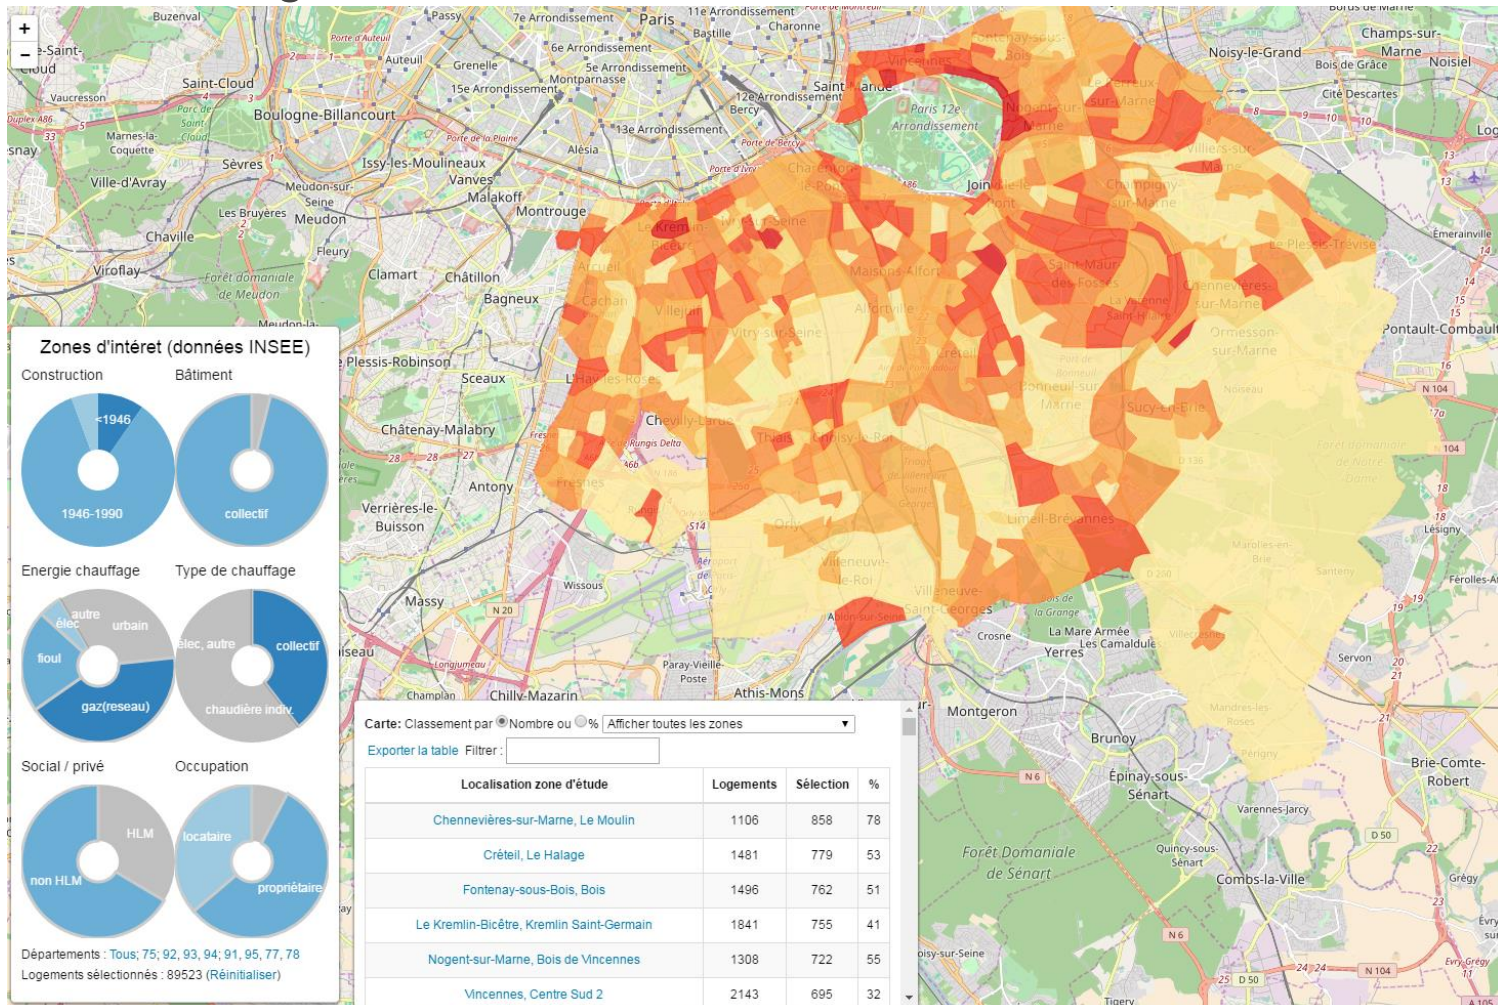

Lead Detection &
Customer relationship

Design and sizing

Operational
effectiveness

Lead detection and customer relationship

Cross-data algorithms...

Design and sizing tools

- Formal language driven by physics

- Multidomain optimization

Operational effectiveness

- **BIM and CIM** for asset and facility management (Lifetime Manager)

<https://www.youtube.com/watch?v=uNK1egTdPPo>

- **Block chain for certification**

- Default detection and predictive algorithms using **drones and AI**

- **Gamification**
