

District Energy

We are looking to Innovate in 4th Generation of District Energy

The 4th generation of district energy has low temperature networks, below 40 degree, concentrating on local networks and use of renewable multiple energy sources

We are searching for **projects** and **stakeholders** active in 4G District Energy Networks

Our 4 focus areas are:
Energy Management, Energy Creation,
Energy Storage, Energy Boosting

Why to get in touch with us?
Help **build a community** focused on innovating the future on District Energy
